Product professional owning an enterprise compensation product end-to-end at FedEx, with engineering (B.E. IT) and MBA (Business Analytics) foundations.

EXPERIENCE

FedEx — Product Analyst, Sales Compensation

Apr 2025 – Present

Global Marketing & Customer Experience COE

- Own the Sales Compensation product end-to-end for ~100 sales reps (80 US, 20 Canada) driving ~\$0.5M in quarterly incentive payouts, on a 3-person product team — translating incentive policy into scalable business and system requirements.
- Shipped 6 major compensation enhancements across US and Canada in the last 4 quarters, owning requirement gathering, business-rule validation, UAT, and release readiness end-to-end.
- Rolled out a leadership-mandated business rule change within 2–3 weeks with zero payout-system downtime, partnering with engineering to automate a previously manual process and cut execution time.
- Identified territory/plan alignment gaps through proactive analysis of payout data and stakeholder feedback; shipped product fixes that reduced seller-raised payout disputes.
- Partner across Sales Leadership, Sales Strategy, Finance (Payout), HR, and Engineering to prioritize and deliver the compensation roadmap.

Pernod Ricard India — Strategic Planning Intern

Feb 2024 – Aug 2024

- Designed and piloted a post-launch evaluation framework across PR's existing product portfolio, giving leadership early visibility into performance and risk signals.
- Built end-to-end business cases assessing feasibility and market demand across a 5-stage (Gates 0–4) innovation process, informing go/no-go investment decisions.
- Ran competitive and category intelligence analysis, translating findings into portfolio and innovation recommendations supporting premiumisation strategy.

Tata Consultancy Services — Systems Engineer

Sep 2020 – Jan 2023

- Led migration of 20+ data pipelines from on-prem infrastructure to GCP for a Fortune 100 retail client, improving reporting speed and data stability.
- Partnered with stakeholders across a high-complexity, multi-team environment to support enterprise data modernization and strengthen governance frameworks.

EDUCATION
